present
**Elementary Years Cyber Smarts
and
Internet Safety**

**Tuesday, January 12th, 2010
7:00 PM**

**Old Greenwich School Cafeteria
(snow date: January 14)**

Have you prepared your child for a lifetime of safe internet use? Do you have specific guidelines in place? Come learn from an expert how to encourage responsible behavior and safely harness the power of technology in the new digital world for kids ages 5-11. Monica Vila, the Founder and Chief Technology Mom of the website, www.TheOnlineMom.com, will discuss many aspects of computer use including social networking, photo sharing, IM & texting, video games, and cyberbullying. You will hear about the latest on tech hardware, gadgets and software for internet safety.

www.TheOnlineMom.com provides internet and technology advice and information to parents so they can embrace technology by understanding both its benefits and risks.

This workshop is free and open to the public.
